

MASTERSTUDIES

Three years in the making, Masterstudies.com will target the high-value online education (OED) market. Core revenue will be generated from universities seeking visibility and leads-generation from exclusive national, regional and global web-portals, as well as banner ads. Current cooperation with International Herald Tribune (IHT) and Monster, along with publishing agreements with a majority of the Top 400 universities, as ranked by IHT and the Financial Times. Head office will be in Oslo, Norway.

We are looking for

An innovative web designer & system architect in an exciting Oslo-based company targetting the world

to join an international team who will take our fully-financed business plan from its current start-up phase to commercial success. You will have proven experience designing and programming successful, user-friendly websites, and a strong desire to influence the shaping of a new venture.

Job Responsibilities

- Take over ongoing programming of our softlaunch web-version (LAMP)
- Build robust systems capable of handling heavy customer traffic
- Plan new services within a commercial aspect
- Implement and release new webcontent and functionality step-by-step
- Coordinate embedding solutions with partners in Europe and Asia
- Build up a system to monitor statistical base and generate leads

Necessary Qualifications

In addition to a University degree you should have:

- Sound knowledge of system design and programming
- Capabilities within HTML, PHP, JavaScript, Ajax and CSS, and understand the challenges of multibrowser-support
- Insight into user friendly programming and can deliver the desired effect by combining the various technologies
- Experience with SQL programming and maintenance of larger mySQL-databases
- Capabilities of configuring and maintaining Linux machines (FreeBSD 5.3 and Apache webserver specifically)
- .NET or VisualBasic 6 programming (for Outlook COM)
- Adobe Photoshop or similar graphic tools
- Zend Development Environment

We Can Offer

- A highly challenging and international job environment
- Salary and other terms commensurate with job responsibilities
- A highly-motivated and supportive Board of Directors, comprised of professionals of varied international background and experience.
